About the University

AGH University of Science and Technology continues the traditions of the Mining Academy established in Kielce by Stanisław Staszic. It serves the science, economy and society through educating students and the development of the scientific and research staff, as well as conducting scientific research.

The highest authority of the University is Rector , who entrusts the coordination of the crucial areas of the University activities to Deputy Rectors (not more than five.)

Rector is the President of the Senate , the highest collegial body of the University.

Some AGH-UST Faculties
